

smartsand[®]
Industrial Product Solutions™

Smart Sand, Inc proudly announces our newest division,
Industrial Product Solutions.

We are excited to build on our success by expanding and diversifying to serve the vital industrial markets throughout North America:

Glass • Foundry • Building Products • Filtration • Geothermal • Renewables • Ceramics • Turf & Landscape • Retail • Recreation & more.

Invested for the long Haul, **Smart Sand Industrial Product Solutions** has built a team of mining & market experts with over 100 years of combined experience

- Customer first philosophy
- Premium quality reserves located in Utica, IL and Oakdale, WI
- Custom blending to match application and performance needs of the customer
- Superior service and logistical solutions with access to 5 class I railroads, truck and barge shipment capability

Smart Sand, Inc is a fully integrated sand supply and services company, offering complete sand, logistics, storage and management solutions to our customers with our in-basin transloading terminals and our **smartsystem**[™] storage capabilities. We own and operate premium sand mines and related processing facilities in Wisconsin and Illinois.
